Capitol Choices 2002

Noteworthy Books for Children Published During 2002

www.capitolchoices.org

Welcome to Capitol Choices

We are pleased to present the 2002 edition. To produce this list, more than 50 committee members spent many hours reading and discussing books and audiobooks for children and young people up through age 16. We hope that parents, librarians, teachers, and others interested in literature for young people will enjoy sharing these books and audiobooks with the children in their lives.

Launched in 1996 as a small outgrowth of the Library of Congress Committee on Recommended Books for Children, the Capitol Choices Committee now includes librarians, teachers, booksellers, children's literature specialists, university professors, and magazine editors who live and work in cities, suburbs, and rural areas in and around Washington, D.C. Committee members attend meetings from as far away as Wilmington, Delaware, and Charlottesville, Virginia, and serve on national book and media award committees.

Capitol Choices Committee members also present workshops on using books with young people. These presentations are tailored for a variety of audiences and interests, from education and library professionals to parents looking for good books for their children. If you would like to have a Capitol Choices workshop for your group, please contact us through the website at www.capitolchoices.org.

Be sure to visit our website often to see what the Committee is considering for 2003. This year we will add new features to the website that will make searching easier and will increase your ability to find the right book for the right child at the right time. You can also find information there on participating in Capitol Choices.

Many thanks to the Arlington County Department of Libraries and the Central Rappahannock Regional Library System for their support of Capitol Choices and its ongoing projects. Without their help the work of the Committee would not be possible.

Thanks also to Jerry Bryan, President of Children's Library Services, for his continuing support of the print editions of Capitol Choices.

Happy reading and listening!
